This is one of the best of the DLC buys, containing the best deck of the mete monarchs. The monarchs are unquestionably the best deck of the format with its high power ceiling, good searching, and good stun potential. Setellarknights are also really fun to play with. Making this my third favourite of the DLC, but this is probably the only DLC you need to wreck people online.. On its own the Monarch deck is nigh unplayable because of the lack of tribute fodder, but it does complete the archetype:

- Angmarl, Ether and Erebus alongside all but one the Vassals/Squires and Domain, Pantheism, The Prime and Frost Blade of the Monarchs, as well as Dark Advance can be found in the Zuzu Boyle card pack (third of the Arc-V card packs, requires the completion of the Arc-V campaign mission that comes with the base game).
- Caius, Mobius, Raiza and Zaborg, as well as Escalation and March of the Monarchs can be found in the Bastion Misawa card pack (second of the GX packs).
- By Order of the Emperor can be found in the Leo/Luna card pack, which is unlocked during the 5D's campaign.
- Escher the Frost Vassal can only be obtained in the Arc-V Yugo's Synchro Dimension DLC.
The Tellarknight deck is a lot more complete, with only five of the Tellarknight archetype not being in this DLC:
 - Tellarknight Ptolemaeus is found in the Zuzu Boyle card pack (as noted above, it is the third of the Arc-V card packs unlocked after the first Arc-V campaign mission that requires no DLC).
 - Satellarknight Zefrathuban and Stellarknight Zefraxciton are both found in the Arc-V Declan VS Celina DLC. They are Pendulum monsters with Pendulum Scale 1 and 7 respectively, allowing the summoning of all Tellarknight monsters.
 - Darktellarknight Batlamyus and Tellarknight Genesis are both not in the game on account of them being too recent.If you like the Monarch archetype, this DLC will greatly expand your collection of Monarch cards. If you like the Tellarknight archetype, this is a must have.. "Shikkoku no yami yori gudan'nanu chikara ni aragau hangyaku no kiba! Ima, k\u014drin seyo! Ekush\u012bzu Sh\u014dkan! Ranku Yon! D\u0101ku Riberion Ekush\u012bzu Doragon!". You need this DLC for "Mathematician" its sad but True ;(
